Speakers

Ara Kesheshian, MD

A practicing thoracic surgeon in Southern CA, Dr. Kesheshian decided to increase the accuracy of measurement in strabismus. With first hand experience of limited existing therapies of common ocular conditions, he has designed new wearable technology that is not only functional but practical.

Gary Kappel, OD

Gary has practiced and taught cranio-sacral therapy. A former chair of NW Congress, we welcome him to the podium.

Neil Renaud, OD

Ted Kadet, OD
Currently doing vision therapy for learning disabilities and rehabilitation at the Hope Clinic in Bellevue, WA. Ted and his staff bring extensive experience to this presentation.

Alan Pearson OD, PhD

Besides a vision therapy/rehabilitation practice, Alan is clinical adviser for the new EYE Center for Children's Vision, Learning & Technology at the University of Washington Bothell will discuss current mission and projects of the center in regards to the use of technology to address critical issues of access and education concerning children's vision care and therapy.

Mark Dean, OD

Mark comes to us all the way from Myrtle Beach, SC, specializing in vision therapy and the use of lenses to maximize visual abilities.

John Abbondanza, OD

Our OEP board representative and Curriculum speaker will speak for an hour on the latest subject he enjoys.

Curt Baxstrom, OD

Currently in private practice in Federal Way specializing in vision therapy, special needs patients, learning disabled children and traumatic brain injuries or stroke. He is also adjunct faculty at PUCO where he helps teach several courses.

Phyllis Liu, OD

In private practice in Milford, CT, Phyllis specializes in vision therapy and traumatic brain injury.

David Cook, OD

In private practice in Atlanta, GA, a frequent presenter on strabismus and stereopsis, a prolific writer and email philosopher, David steps away from strabismus for NW today.

Hannu Laukkanen, OD

Hannu is a member of the NW Congress committee, professor at Pacific University, a frequent presenter, and brings two of his research students to present.

Rik Lemoncello, PhD

Professor of communication disorders at Pacific University, working with traumatic brain injury, and apparently also a baker.
