Attendance at this seminar is limited.
Early registration is recommended.

Cancellation policy

A non-refundable fee of 25% of registration fees
if cancelled within two weeks of RCS.

Lecturer

Robin Lewis, OD

Dr. Lewis practices in Chandler, Arizona and is a member of the Board of the Optometric Extension Program Foundation (OEPF). He serves as adjunct faculty at Pacific University College of Optometry, Southern College of Optometry, Western University College of Optometry, and the University of Missouri St. Louis College of Optometry. Dr. Lewis is a member of the OEP Clinical Curriculum faculty and spends a major portion of his time teaching, tutoring, and case consulting with optometrists nationally and internationally.

The New Old Fashioned Approach To Strabismus & Amblyopia

This regional clinical seminar will provide a practical clinical and theoretical background for understanding the development of a normalized visual process for a patient who has been diagnosed with strabismus and/or amblyopia.

In many cases, doctors are concerned with the unusual terminology associated with the treatment of strabismus and amblyopia. This course will concentrate on demystifying the theory and practice of lens prescribing and techniques of therapy with both case examples and hands on demonstration of techniques in a workshop atmosphere. Each participant will have a chance to experience the techniques as both patient and therapist.

Many new practitioners are concerned with the cost of the equipment associated with providing quality vision therapy in their offices. This seminar will demonstrate the use of common materials to provide uncommonly good therapy. With the exception of vectographs, no therapy technique will use materials that cost over \$100.

The New Old Fashioned Approach To Strabismus & Amblyopia

21-22 October 2017

HALTON VISION THERAPY CENTER / DR. PATRICIA FINK
BURLINGTON, CANADA

OEP reserves the right to cancel seminar two weeks in advance if registration is inadequate.
