## Dear Colleague,

Please let this letter serve as your official invitation to join us for the Reading Seminar of Advance Behavioral Vision on May 11, 12 & 13, 2018. The seminar will again be held in York, PA at the Hampton Inn, 1550 Mt. Zion Road, York, PA.

This year's speaker is Geoffrey Heddle, O.D. Dr. Heddle has a private practice specializing in vision therapy in Osceola, Indiana, and is a member of COVD, NORA, OEFP, and the College of Syntonic Optometry. He has served as a consultant for the Toronto Maple Leafs, the New York Knicks, police forces, and Head Start programs.

At this year's meeting, Dr. Heddle will discuss his method of testing, and training athletes. Included in this discussion will be his testing protocol, rationale for these tests, the insights into performance and potential from this testing, and global aspects of treatment to help any athlete playing any sport at any level. Dr. Heddle will also touch on concussions. In addition, you can look forward to hands-on workshops for both testing, and training.

Even if you do not specifically work with athletes, I am certain that you can gain insights for your patients' visual performance in everyday activities, your student athlete patients, as well as, your patients' need of visual rehabilitation from brain injury to recover strength, speed, and agility in visual performance.

The seminar hours are Friday and Saturday  
9:00 am to 4:30 pm and Sunday 9:00 am-12:00 pm  
Please come early on Friday for registration,  
starting at 8:30 am.

Don't forget to bring something to share at the Sharing Session on Saturday evening after dinner. It can be an activity, a piece of news, a case presentation, etc. Be creative!

Looking forward to seeing you in May!

Sincerely,

**Christa Roser, O.D., FCOVD**
